ABSTRACT

Topic: CRAFT WORLD

Project Nature: << New Topic>>

Completion Level: <<Zero>>

A handicraft, sometimes more precisely expressed as artisanal handicraft, is any of a wide variety of types of work where useful and decorative objects are made completely by hand or by using only simple tools. It is a traditional main sector of craft, the main problem faced by many handcrafters are the unavailability of a centralized market of their product. If there is many stores they act as a mediator, that is they buys products form handcrafter and sales the product in market but most case handcrafter will not get the desired price they desire. Also, if there any foreigners need to buy handcraft, they must visit the store.

The proposed system is a very flexible online marketing application for Handcrafters. This is a web-based application that offers a wide range of operations such as, an online market, the handicraft product upload straight to the online store and ordinary users can view and buy their desired one. Through this a handcrafter gets his payment straight to his account that registered with this web application. It also includes bidding. The provision bidding section will produce better output rare products. Reach of product in worldwide will lead to a better marketing, it led more profit for handcrafters.

The main modules are:

1.Admin

2.Handcrafters

3.Users

Module 1: Admin

Admin is an authorized person and he is in full control of the overall system. The administrator can:

a) Website Management

b) Publish products

c) Add/block users and handcrafters

d) Process payment

e) View feedback

f) online bidding Approve

g) Login

h) Change password

Module 2: Handcrafters

 The Handcrafter is the one who is registered in the system for selling his product through this application. He can perform the following functions:

a) Registration

b) Login

c) Changing password

d) Managing product

e) Bidding Request

e) View order

f) Sales status

Module 4: User

The user is the consumer of handicrafts they buy, view products that are uploaded to our network.

a) Register

b) Login

c) Manage profile

d) Buy, bid products and pay using card

e) View product and upcoming events

f) View order /delivery status

j) Feedback, Report
